Worpswede Art Prize 2018 > MONEY | POWER /S | FUTURE

The Worpswede Art Award 2018 addresses a theme that is always up to date.

Apart from love, there is probably no topic that moves humanity as much as the "dear money". Money as a means of payment, valuation standard, instrument etc. has many facets. "Money moves the world" and the imagination of many people since it exists. If money can shape the future, the question arises: which future? Finally, money can be used to promote education, business, innovation and art, to create "blossoming landscapes" ... or to fund disinformation, political destabilization and wars.

It can be assumed that artists have been already intensively involved in the subject of MONEY | POWER | FUTURE. The organizer of this art prize is calling on artists interested in this topic to submit one to three works for the Art Prize Worpswede 2018.
